

Loading & Unloading

Easy come, easy go. Literally.

**Drawbridge
Leveller**

Mobile Yard Ramps Ideal for use with heavy duty fork-lift loads with capacity up to 15,000kg and bespoke designs or Rent-a-ramp on request.

**Counterbalanced
Drawbridge Levellers**

Designed to accommodate varying vehicle heights, strong springs under the leveller make operation easy as the springs counterbalance the leveller. We fit safety side curbs as standard.

Drawbridge Ramp Combos for vehicles with a larger height difference.

Dock Plates offer a less costly way of loading and unloading vehicles.

Truckloada Suitable for pallet trucks and ideal for vehicles without tail lifts.

Vehicle Loading Conveyors

Mobile units that can be extended into vehicles to assist with moving parts.

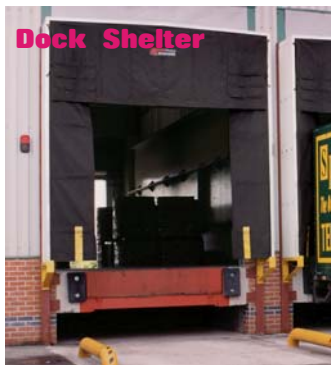

Modular Docks when no concrete loading bay is present and allows stock to accumulate when using a pallet truck. Can incorporate dock levellers.

**Fixed Dock Shelters
& Inflatable Dock Seals**

Both create an effective weatherproof seal between dock & vehicle, with the fast inflating seal also reducing heat loss.

**Truck
loada**

Dock Shelter

So if you think your business could benefit from improving the way that you load and unload goods, then call Clark Handling now on 0845 602 9663 and let us help.
