

Access Equipment

Grants you access to all areas.

Clark Handling supplies specialised equipment throughout the UK to lots of different companies that need safe, easy access for difficult or dangerous tasks.

Access Platforms

For one or two man usage and designed to be used with fork-truck and pedestrian stackers, they all include harness rails fitted as standard and a locking facility. Also available are gated models plus optional castors and tool trays can be fitted.

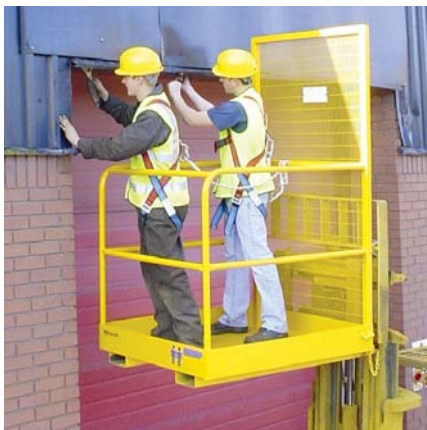

Mobile Safety Steps & Platforms

With full height handrails, choice of treads, punched metal or non slip surfaces. Retractable swivel castors & access barred retractable brake. Standard sizes from small to large to suit your needs. Bespoke platforms to suit storage applications.

Order Picker

These devices are ideal for stock picking and high level maintenance. Models are available in different sizes from 1.8m x 2.4m platform heights. They are designed to work well in tight or restricted areas and are manually propelled with a battery lift.

If your business would benefit from improving how it works with some of our products call us now on 0845 602 9663.
